

Specialized Home Health Care and Pharmacy Services

PCPA Compounding Pharmacy

With our advanced technology and a comprehensive inventory of chemicals and formulas, Market Drugs Medical pharmacists can compound many medications. Some of the medicines we compound are topical creams, lozenges, veterinary medications and impotence injections. We use a *Microsphere Class 10 Clean Micro environment* for all clean preparations. Your prescriptions will be compounded individually by a Professional Compounding Pharmacist.

Free Delivery in Edmonton, Sherwood Park and St. Albert, next day Express Post or Loomis to other Provincial locations.

Hours of Operation

8:30 am—5:30 pm Monday through Friday

9:00 am—3:00 pm Saturdays

FLAVOURS

Choose from the following list which contains the most common flavors that we currently use. The list is not exhaustive. We commonly combine flavors. Some medications will interact with some flavors, so please ask our pharmacist to indicate the most appropriate before choosing.

Apple
Almond
Banana
Butterscotch
Cherry
Crème de Menthe
Chocolate
Grape
Lemon
Peppermint
Marshmallow
Raspberry
Root beer
Strawberry
Tangerine
Tutti Frutti
Vanilla Butternut
Watermelon

SWEETENERS

We can use a variety of agents to sweeten your prescription. To disguise the flavor of the medication, we must use one or more sweeteners. However you or your child may have special requests. Please discuss this with our pharmacists.

Glucose
Aspartame
Acesulfame
Sucralose
Sodium saccharin
Fructose
Sucrose
Stevia
Sorbitol
Other

DOSAGE FORMS

We can alter the final form of your medication rather than just being commercially available as a liquid for instance.

Chewable (white or dark chocolate, peanut butter)
Capsules (various sizes)
Lozenges
Liquids
Lollipops
Powders
Topical creams, gels and ointments
Gummi's
Freezies
Nasal sprays
Eye drops
and more

SPECIAL REQUESTS

We will endeavour to make a prescription that meets your expectations without compromising the actions of the medication.

Dye-free
Peanut butter-free
Lactose-free
Gluten-free
Sulfite-free
Maltodextrin-free
Corn-free
Sugar-free etc.

DIETARY CONCERNS

We will try to make compounds that will meet the needs of children on ketogenic, PKU, or other diets. If your child is being fed by G-tube and has no flavor concerns, then perhaps the consistency of liquids can be altered. If you have day or child care issues that need to be addressed. Just ask us we will work with you.

FOR ANIMALS

We take the same care for your animals by offering Animal flavouring of any of the previously mentioned children's flavors. We also make animal treats with medications incorporated.

Beef
Chicken
Cheese
Fish
Liver
